- f. Cell: +98 9181610558
- g. Address: Shayegan Str., Industrial Zone No1., Arak, Markazi, Iran.

2. Introduction:

Spread across 7000 square meters, the complex houses FTM's facilities for manufacturing low and medium voltage products. The complex has a comprehensive infrastructure including metal, painting and assembling workshops.

3. Strategy

FTM's Vision is to be a major player in electrical manufacturing and construction industry with unique attributes, characterized by quality products and services, excellence in practices, and values that nature human potential.

Solar electricity will be a mainstream energy source and an integral part of Iran's diversified electricity mix. The solar electricity industry will be sustainable, with no direct subsidies, and operating in a supportive and stable policy and regulatory environment that recognizes the true value of solar.

Over the last several years, energy markets have dramatically changed, and the solar power industry has significantly matured. The days of one-off projects driven by Innovators and Early Adopters are past. In place of individual opportunistic projects, energy-conscious organizations are implementing comprehensive, long-term roadmaps that strategically utilize solar power in a portfolio of sites to enhance brand equity and achieve clear financial goals.

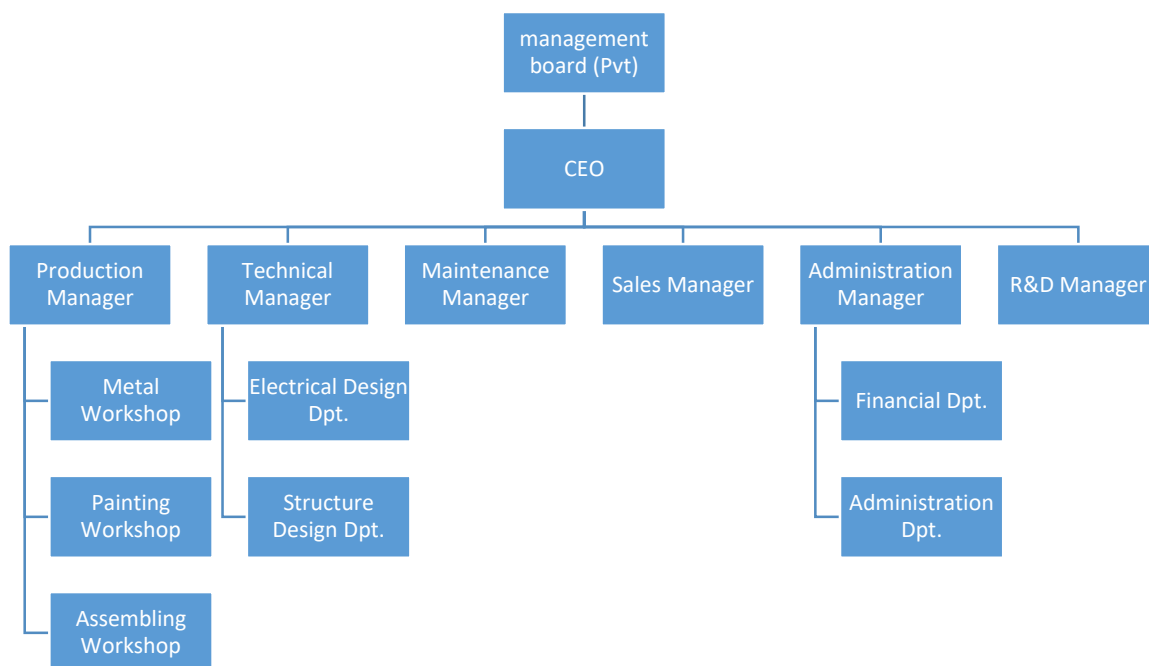

4. Business concept

Quality management system is considered as an essential need for maintaining competitive advantage and satisfying our customers. We use quality management systems to meet requirements of our

customers effectively and keep the quality of product in line with international standards.

Taking this fact into consideration, FTM company has adopted quality management system based on the international standards of ISO 9000 and has arranged the necessary means for its implementation. ISO 9000 standard as a quality management system creates a base for quality assurance and client's trust.

5. Management & Ownership

6. Product Pictures

a) Automation Panels

b) Control and Protection Panels

c) Low Voltage Panels

d) Whitdrawable LV Panels

e) Medium Voltage Panels

f) Medium Voltage Kiosks

7. Current customers & projects

- Khomeyn 10MW Photovoltaic Plant
- Shiraz 7MW Photovoltaic Plant
- 4000A transformers coupling panels of Iranian Aluminium Co., Iran.'
- MV, LV distribution panels of Alumrol, Kheyraabad, Iran.
- Automation panels of Neka Power Plant, Mazandaran, Iran.
- Emergency system panels of Iranian Oil Pipeline Co., Iran.
- +20 more projects.

8. Completed projects

- Arak 10MW Photovoltaic Plant
- Qom 25MW Photovoltaic Plant
- Automation and distribution panels of Jebel-Ali flour mill, Dubai, UAE.
- Low voltage distribution panels of Imam-Ali shrine, Iraq.
- Modular LV panels of Iranian Aluminum Co., Arak, Iran.
- Main distribution panels of Hallal Pouyan Co., Arak, Iran.
- Main distribution panels of Kimiagaran Co., Shazand, Iran.
- Automation, MV, LV panels of Danehsazan flour mill, Saveh, Iran.
- Automation, MV, LV panels of Ahvaz flour mill, Ahvaz, Iran.
- +200 more projects
